## SGS-TÜV Saarland Forster GmbH becomes Spezial-EMV GmbH

Dear Ladies and Gentlemen:

We are pleased to inform you that we will take over, continue and expand the renowned EMC test laboratory SGS-TÜV Saarland Forster GmbH, based in Perl-Sinz, on January 1<sup>st</sup>, 2021. From January 1<sup>st</sup> 2021, the laboratory will operate under the name Spezial-EMV GmbH with a significantly expanded team and will be managed by the two managing directors Dipl.-Ing. (FH) Sven Eric Weber and Dr.-Ing. Edgar L. v. Hinüber.

Having already worked as deputy laboratory manager at SGS-TÜV Saarland Forster GmbH until 2016, Mr. Weber was head of department for all European EMC and radio laboratories of a leading German test service provider until the end of 2020. With the takeover of the management, Mr. Weber is now returning to his old place of work.

Edgar v. Hinüber is the founder and managing director of iMAR Navigation GmbH in St. Ingbert, a technology-oriented company with more than 75 employees worldwide for inertial navigation and stabilization systems. iMAR Navigation GmbH develops and manufactures hardware and software for automotive, industrial, military and aeronautical applications and is the sole shareholder of Spezial-EMV GmbH.

Due to its extensive metrological equipment, Spezial-EMV GmbH offers you all common EMI/EMC tests as well as certifications for commercial, industrial, automotive, military and aeronautical products as well as support in the handling of type-approval procedures with regard to KBA. For surveying and international certification in the field of radio-based components, we are happy to refer to a company also based in St. Ingbert, which specializes in radio products.

Geschäftsführer / Managing Directors:

Gesellschafter / Shareholder:  
iMAR Navigation GmbH • Im Reihersbruch 3 • D-66386 St. Ingbert  
[www.imar-navigation.de](http://www.imar-navigation.de)

In addition to pure testing services, our core business also includes orientated pre-testing and consulting services regarding design optimization. This enables our engineers, experienced in EMC design, to provide our customers with efficient and economical certification of their products.

Mr. K.-H. Forster, who has led the company very successfully for over 20 years, will retire at this time, but will continue to provide us with advice.

Until end of 2021, the laboratory will be operated and technically expanded at its current location in Perl-Sinz, Saarbrücker Str. 1 with four employees. During this time, the new company building on the site of iMAR Navigation GmbH incl. an SAC-3 and an FAC-3 absorber hall will be completed in St. Ingbert, at the location of iMAR Navigation GmbH. In mid-2021, the laboratory's location will be completely relocated to St. Ingbert, where additional infrastructure is available to carry out also shock, vibration and temperature qualification tests. This is where the DAkkS accreditation of the laboratory in accordance with ISO 17025:2017 takes place.

We look forward to a good cooperation with your company and would be happy to continue to count you among our customers. We assure you already today a technically competent and reliable processing of your orders.

If you have any questions, please do not hesitate to contact us.

Yours sincerely

Spezial-EMV GmbH

Dipl.-Ing. (FH) Sven Eric Weber
